Reference-Based Pricing Provided by

Reference-Based Pricing (aka Value-Based Payments (VBP)) is an alternative health plan that uses a transparent way to determine the price of service based on value and quality. This process is based on Medicare prices plus a percentage – not some hidden arbitrary number.

In general, VBP is based on a percentage of Medicare (often 150%) and is used to determine hospital payments.

How VBP Works

Below is how HST's VBP Health Plan works. The real difference between the HST Plan and a traditional PPO is how we reimburse hospitals.
