

## FIND YOUR FORMULARY DRUG LIST

### Definition

Formulary Drug List: A list of brand name and generic prescription drugs reimbursed at maximum payment levels by BCBSND

Find out if a drug is covered under your pharmacy benefits by using your formulary drug list.

### Step 1:

Visit [BCBSND.com/rx-tools](https://www.bcbsnd.com/rx-tools).

### Step 2:

Scroll down below Pharmacy tools and select “BCBSND Formulary.” If you are using a mobile phone, you will select “BCBSND Formulary” in the drop-down list. If you are using a computer or tablet, select the “BCBSND Formulary” tab.

### Mobile:

#### Select the tab below for benefits that are appropriate for you.

*Please review your benefit plan materials to determine your Formulary. If you are unsure, please contact customer service using the number on the back of your Insurance ID card with any questions.*
