

Blue Cross Blue Shield of North Dakota is committed to giving you a pharmacy that offers the specialty medications and support you need to manage your complex health issues, with smooth delivery and personalized care. That's what you get with Accredo, your preferred specialty pharmacy.

WHAT IS A SPECIALTY MEDICINE?

A medication used to treat chronic, complex conditions like multiple sclerosis, hepatitis C and cancer. Specialty medications can include oral formulations, or can be injected, infused or inhaled and may require special handling, such as refrigeration.

CARE

PERSONALIZED CARE

The Accredo team includes specialty-trained pharmacists, nurses, pharmacy techs and patient care advocates who understand chronic and complex conditions. They provide personalized clinical support, work with your doctor to manage your overall medication therapy and care for a wide range of complex conditions including:

- Cancer
- Cystic fibrosis
- Hepatitis C
- HIV
- Immune Disorders
- Multiple sclerosis
- Psoriasis
- Rheumatoid arthritis
- And many more
